1. Introduction

This Assessment Strategy provides principles and guidance to Awarding Organisations for the assessment of competence-based units and qualifications (including Scottish Vocational Qualifications and National Vocational Qualifications) within Business Administration, Customer Service and Management and Leadership in England, Scotland, Wales and Northern Ireland.

This document outlines Skills CFA principles in regards to:

- external quality control of assessment
- requirements of assessor and verifiers
- evidence
- employer direct model.

These principles are in addition to the generic criteria that Awarding Organisations must meet for delivery of qualifications as required by the qualification regulators, for example Ofqual's Regulatory Arrangements for the Qualifications and Credit Framework and any regulatory requirements specified by the SQA Accreditation.

This strategy should only be used for the assessment of the Business Administration, Customer Service and Management and Leadership competence-knowledge based units and qualifications owned by Skills CFA. Units which have been imported by Skills CFA into their apprenticeships or competence-based qualifications will be assessed in compliance with their relevant assessment strategies. Awarding Organisations may assess knowledge-only units as they see fit.

2. External quality control of assessment

The quality of the assessment process is the responsibility of Awarding Organisations. However, Skills CFA encourages flexibility and innovation of approach, alongside robust systems to support quality control. Awarding Organisations are also encouraged to detail their approach to external verification, risk assessment and data requests.

2.1 External verification

- Awarding Organisations are responsible for the competence of external verifiers. It is the responsibility of Awarding Organisations to monitor centres' performance in accordance with regulatory requirements.
- Awarding Organisations must consistently apply external verification processes at all assessment centres delivering competence-based qualifications. These should be underpinned by standard risk assessment and risk management processes.

2.2 Risk assessment

- Awarding Organisations must carry out standard risk assessments for all qualification assessment centres that are delivering competence-based qualifications. Identified risks must be managed appropriately.
- Awarding Organisations must retain evidence to prove that a risk assessment has been carried out for each approved centre, and that a strategy to minimise any identified risk has been implemented.

2.3 Data requests

- Each quarter, Awarding Organisations must provide registration and achievement data at all qualification levels and unit levels (where possible) to Skills CFA.

3 Requirements of assessors, EQAs and IQAs

Candidates may be assessed, moderated or verified at work either by several appointed individuals.

3.1 Assessors

The primary responsibility of an Assessor is to assess candidates' performance in a range of tasks and to ensure the evidence submitted by the candidate meets the requirements of the assessment criteria.

It is important that an assessor can recognise occupational competence as specified by the national standard. Assessors therefore need to have a thorough understanding of assessment and quality assurance practices, as well as have in-depth technical understanding related to the qualifications for which they are assessing candidates.

To be able to assess candidates, Assessors must:

- be “occupationally competent”. Assessors must provide current evidence of competence, knowledge and understanding in the areas to be assessed. This will normally be achieved through demonstrating competence in the roles which are to be assessed or demonstrated by relevant experience and continuing professional development (CPD) which may include the achievement of qualifications relevant to the areas being assessed;

AND ONE OF EITHER OF THE FOLLOWING

- hold an appropriate qualification, as specified by the appropriate regulatory authority, confirming their competence to assess candidates undertaking competence-based units and qualifications. Assessors holding older qualifications must be able to demonstrate that they are assessing to the current standards;

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. Any Assessors working towards an appropriate qualification must ensure their decisions are countersigned by a suitably-qualified assessor/verifier and should be supported by a qualified assessor throughout their training period; **AND** have a full and current understanding of the units of competence and requirements of the qualifications being assessed, including the quality of assessment and the assessment process.

It is the responsibility of approved centres to select and appoint assessors.

3.2 External quality assurer (EQA)¹

The primary responsibility of EQAs is to assure quality of internal verification and assessments across the centres for which they are responsible. EQAs must have a thorough understanding of quality assurance and assessment practices, as well as in-depth technical knowledge related to the qualifications that they are externally verifying.

EQAs must:

- be “occupationally competent”. EQAs must demonstrate sufficient and current understanding of the qualifications to be verified, and know how they are applied in business;

AND ONE OF EITHER OF THE FOLLOWING

¹ Also known as External Verifier (EV)

- hold an appropriate qualification as specified by the appropriate regulatory authority, confirming their competence to verify competence-based assessments. EQAs holding older qualifications must be able to demonstrate that they are verifying to the current standards;

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. If EQAs are working towards an appropriate qualification, their decisions must be countersigned by a suitably qualified EQA² and should be supported by a qualified EQA throughout their training period; **AND** demonstrate competent practice in external verification of assessment, and demonstrate understanding of the principles and practices of external verification of assessment, including the quality of assessment and the assessment process.

It is the responsibility of the awarding body to select and appoint EQAs.

3.3 Internal quality assurer (IQA)³

A primary responsibility of IQAs is to assure the quality and consistency of assessments by the assessors for whom they are responsible. IQAs therefore need to have a thorough understanding of quality assurance and assessment practices, as well as sufficient technical understanding related to the qualifications that they are internally verifying. It will be the responsibility of the approved centre to select and appoint IQAs.

IQAs must:

- be “occupationally competent”. IQAs must demonstrate sufficient and current understanding of the qualifications to be internally verified, and know how they are applied in business;

AND ONE OF EITHER OF THE FOLLOWING

- hold an appropriate qualification, as specified by the appropriate regulatory authority, confirming their competence to internally verify competence-based assessments and candidates. IQAs holding older qualifications must be able to demonstrate that they are verifying to the current standards;

OR

- be working toward an appropriate qualification, as specified by the appropriate regulatory authority. If an IQA is working towards an appropriate qualification, their decisions must be countersigned by a suitably qualified IQA⁴ and should be supported by a qualified IQA throughout their training period; **AND** demonstrate competent practice in internal verification of assessment, and demonstrate understanding of the principles and practices of internal verification of assessment, including the quality of assessment and the assessment process;

Skills CFA and awarding organisations requires all assessors, moderators and verifiers to maintain current Business Administration, Customer Service and Management and Leadership competence to deliver these functions. Skills CFA recognises this can be achieved in many ways. However, such information must be formally recorded in individual CPD records that are maintained in assessment centres.

² The need for countersigning the decisions of EQAs working towards a qualification, applies to England and Wales and Scotland.

³ Also known as Internal Verifier (IV)

⁴ The need for countersigning the decisions of IQAs working towards a qualification, applies to England and Wales and Scotland.

4. Evidence

4.1 Evidence from Workplace Performance

- Evidence of occupational competence of all competence units at any level, should be generated and collected through performance under workplace conditions. This includes the knowledge-based learning outcomes and assessment criteria of the (QCF) competence units.
- These conditions would be those typical to the candidate's normal place of work. The evidence collected under these conditions should also be as naturally occurring as possible. It is accepted that not all employees have identical workplace conditions and therefore there cannot be assessment conditions that are identical for all candidates. However, assessors must ensure that, as far as possible, the conditions for assessment should be those under which the candidate usually works.

4.2 Simulation

- Simulation can be applied to all QCF units listed in Appendix B.
- Where simulation is used for QCF units at Level 2 and above, it should only form a small part of the evidence for the qualification.
- Evidence may be produced through simulation solely in exceptional circumstances. The exceptional circumstances, under which simulation is possible, are those situations that are not naturally or readily occurring, such as response to emergencies.
- Simulation must be undertaken in a 'realistic working environment' (RWE). A RWE is "an environment which replicates the key characteristics in which the skill to be assessed is normally employed". The RWE must provide conditions the same as the normal day-to-day working environment, with a similar range of demands, pressures and requirements for cost-effective working. Guidelines for using RWE can be found in Appendix A.
- Simulation can also be used for SVQs. However, where simulation is used for SVQ units, it should only be for small parts of the units (at any level), in exceptional circumstances only and undertaken in RWE.

5 Employer direct model

The employer direct model is where colleagues, supervisors and/or managers in the workplace are involved in the assessment process. Under this model, the employer, with the agreement of their Awarding Organisation may choose between:

- Achieving the appropriate regulatory body approved unit qualifications for assessment;
- OR**
- Demonstrating that the employer's training and development activity undertaken to prepare, validate and review these assessment roles, maps 100% to the National Occupational Standards which these qualifications are based on. The mapping process must be agreed by the Awarding Organisation as providing the equivalent level of rigour and robustness as achievement of the unit qualification.

In order to use the employer direct model:

- **An organisation must:**
 - have staff who have achieved, or be working towards achieving, appropriate regulatory body approved unit qualifications for assessment, moderation or verification;

OR

 - seek guidance and approval from an awarding organisation to demonstrate that they have:
 - appropriate processes in place to facilitate assessment, moderation or verification functions
 - carried out 100% mapping of the trainer, supervisor or managers' assessment, moderation or verification skills and knowledge to the National Occupational Standards upon which the qualifications above are based.
- **An Awarding Organisation must:**
 - offer this model to employers only
 - supply information on the requirements for internal and external moderation/verification activities to assessment centres.

6. Appendix A – Realistic Working Environment Guidelines

Realistic Working Environment (RWE) can be applied to all the units in Appendix B:

It is essential that organisations wishing to operate a RWE operate in an environment which reflects a real work setting. This will ensure that any competence achieved in this way will be sustained in real employment.

To undertake the assessment in a RWE the following guidelines must be met:

1. the RWE is managed as a real work situation
2. assessment must be carried out under realistic business pressures
3. all services that are carried out should be completed in a way, and to a timescale, that is acceptable in business organisations
4. candidates must be expected to achieve a volume of work comparable to normal business practices
5. the range of services, products, tools, materials and equipment that the candidates use must be up to date and available
6. account must be taken of any legislation or regulations in relation to the type of work that is being carried out
7. candidates must be given workplace responsibilities to enable them to meet the requirements of the units
8. customer perceptions of the RWE is similar to that found in the work situation being represented
9. candidates must show that their productivity reflects those found in the work situation being represented.

7. Appendix B – Simulation: a list of QCF units

Simulation can only be applied to the following competence units:

Business Administration

Skills CFA Ref.	Unit title	Level
B&A 3	Work with others in a business environment	1
B&A 4	Health and safety in a business environment	1
B&A 5	Manage time and workload	1
B&A 6	Use a telephone and voicemail system	1
B&A 7	Prepare text from notes	1
B&A 8	Meet and welcome visitors in a business environment	1
B&A 9	Handle mail	1
B&A 10	Use office equipment	1

Customer Service

Skills CFA Ref.	Unit title	Level
CS 2	Communication in customer service	1
CS 3	Record details of customer service problems	1
CS 4	Deal with customer queries, requests and problems	1

Management and Leadership

Skills CFA Ref.	Unit title	Level
M&L 17	Manage conflict within a team	3
M&L 31	Discipline and grievance management	4
M&L 44	Manage redundancy and redeployment	4
