Work at Height

Highfield Level 1 International Award in Work at Height

This qualification has been developed for learners working in any environment, who will have a job role involving work at height activities.

The aim of the qualification is to provide learners with knowledge of the basic health and safety practices essential when working at height. Achievement of this qualification will enable learners to understand the risks associated with working at height, the requirements of a safe system of work, requirements for correctly selecting and using equipment safely, following the correct techniques.

How long will it take me to achieve this qualification?

This qualification is usually achieved by taking half a day classroom-based course with a minimum contact time of 4 hours, at any Highfield approved international centre. There are no specific age restrictions for this qualification.

How is the qualification assessed?

Learners will sit a 30 minutes multiple-choice examination containing 15 questions and must achieve at least 9 (60%) correct answers to be awarded a Pass. Learners achieving 12 (80%) or more correct answers will be awarded a Distinction.

What next?

Individuals achieving this qualification can then progress onto any of the Highfield Health and Safety qualifications such as Highfield Level 2 International Award in Work at Height, Highfield Level 2 International Award in Risk Assessment and Highfield Level 2 Award in Health and Safety in the workplace (RQF).

Where can this course be taken?

Through any Highfield approved training centre.
