Highfield Level 2 End-Point Assessment for Pharmacy Services Assistant

Government funding band – £5,000

On-programme duration – 12 months minimum

Gateway requirements:

- Level 1 English and maths (level 2 should be attempted)
- Completed portfolio

End-point assessment methods: Knowledge test, simulated observation with question and answer session and professional discussion

## Working as a pharmacy services assistant

The pharmacy services assistant (PSA) works under the supervision of a pharmacist, pharmacy technician or other accountable healthcare professional. The PSA provides a variety of pharmacy and medicines services to patients, the public and other professional healthcare teams. The PSA supports the delivery of pharmacy services in a variety of pharmacy environments.

A PSA will be involved in supporting the supply, preparation and assembly of medicines and products. They will issue these to patients and other healthcare professionals and assist in providing advice to patients, helping them to make effective use of their medicines. They will be responsible for ordering and receiving medicines, as well as for their storage, disposal and return.

## The programme's structure

Apprentices will be placed in a role over a minimum of 12 months during which they will be supported while on-programme by their tutor. During the 12 months, the tutor will review the progress of the apprentice against the standard to ensure they are prepared for the end-point assessment.

Pharmacy Services Assistant Level 2 Apprenticeship Standard

- Initial assessment
- English and maths training
- · On-programme training to meet the requirements of the standard
- Gateway self-assessment report

## Set for assessment

## The methods used for end-point assessment are as follows.

#### **Knowledge Test**

- 90-minute multiple-choice test
- Will include scenario-based questions

# Simulated observation with question and answer session

- 2 simulated tasks to be completed during a 1-hour observation
- 1:1 observation that should take place in the apprentice's normal working environment
- 10-minute question and answer session after each task

## Go further

On completion, successful apprentices can progress further in the sector in related job roles, such as pharmacy technician or pharmacist.
